

At The Lost Dogs' Home we are committed to finding the pawfect adoption match for both the animals in our care and the people adopting them.

We'll endeavour to match you to your ideal pet however there may be times where we may not have the match for everyone. If this is the case we recommend talking to our team about adoption options through one of our valued rescue partners.

We work closely with these partners because from time to time we need to rehome animals with very specialised requirements or those we know will not do well in a shelter environment.

The Home works with more than 90 responsible rescue partners across Australia. Each group working with us is different. Some will work with a range of dogs and cats whereas others will specialise in the needs of a specific breed.

Each rescue runs their own adoption program to help find homes for the animals in their care.

Below is the list for our rescue partners. If you are looking for a specific breed of dog or cat, speak with our adoptions team for more information.

Rescue group in alphabetical order	Animal types

Since our official opening in 1913, we have been a voice for animals without owners caring for thousands of cats and dogs each year. Pioneers for fair animal laws, we continue to work on the front line to reduce the number of lost, abandoned and stray cats and dogs.

We rely on public support to run services and programs, including: proactive adoption, foster care, behaviour rehabilitation, low cost desexing and microchipping, and the promotion of better pet ownership through education.
