

ADOPTING FROM THE LOST DOGS' HOME

- X \

Considering adopting from The Lost Dogs' Home but need some more information? Congratulations! You are already on the right track towards better pet ownership!

Adopting a second SHW?

When you will need to bring your new pet to the Home to meet the potential new dog you've selected before you adopt. We will determine whether the two SHWs will be compatible in your home.

ADOPTING FROM THE LOST DOGS' HOME

By adopting a dog, cat, puppy or kitten from a shelter like The Lost Dogs' Home, you're giving an animal in need a much-deserved second chance at life. This is one of the most positive things you can do to help the thousands of lost, stray and abandoned companion animals coming into our care each year, and others like them across Australia.

The Home is committed to educating the community about better pet ownership and working with adopters to make sure our animals are adopted into loving homes with well-informed owners.

Before making the 10 – 20 year commitment that comes with bringing a cat or dog into your life, take the time to read through the adoption process and what to expect when bringing a new friend into your life.

FINDING THE RIGHT PET FOR YOU

Our online pet portfolios are updated in real time. As well as photos, the online pet portfolios give you an insight into the animal's

personality and needs, helping you find the right pet to suit your lifestyle.

Visit our website, www.lostdogs.org.au, to find out more about the adoption process and what to expect when bringing a new friend into your life.

THE ADOPTION PROCESS

The adoption process involves a number of steps to ensure the best possible outcome for the animal and the adopter. This includes a home visit, a vet check, and a trial period.

Cost: + \$77.00

The adoption fee covers the cost of the vet check, microchipping, and a trial period. It also includes a small amount of food and bedding.

- A current and valid form of photo ID, (such as a passport, vehicle license or proof of age card)
- Proof of your current address
- Any dogs permanently living at the adopter's home (dog adoptions only)

HOW MUCH DOES IT COST?

Adult dogs: \$460-\$800

Puppies (under 6 mths): \$1000

Senior dogs (+10 yrs): a suggested donation of \$50 or more

Adult cats: \$130

Pure breed adult cats: \$800

Kittens (under 6 mos): \$235

Pure breed kittens (under 6 mths): \$800

Senior cats (+7 yrs): a suggested donation of \$50 or more

Adopting from us means you are not only giving one of our pets a second chance at a happy home, but are also supporting the life-changing care given to the thousands of homeless pets we take in every year.

Adoption fees help to cover a small portion of the costs required to prepare a pet for adoption, which includes desexing, microchipping and vaccination, as well as day-to-day care during their stay with us. Dogs are heartworm checked and cats are FIV tested.

In addition, many pets also spend several weeks in our care undergoing extensive vet treatment and surgery, behaviour training and foster care before they're ready for adoption.

All dogs and cats also undergo a thorough health and temperament test by a qualified veterinarian and the Home's Animal Behaviour department prior to adoption.

RECEIVE A DISCOUNT ON YOUR ADOPTION FEE!

Complete our online Pet Licence test at www.petlicence.com.au and score 100 per cent, bring in your certificate to receive either \$30 off your canine or \$15 off your feline adoption. You can complete the test as many times as you need to get all the answers correct.

REASONS TO ADOPT

- Adopting a companion animal from a shelter helps dogs and cats in need of a new home and reduces the demand for pets supplied by backyard breeders, pet shops and puppy farms.
- It is generally much less cost to adopt a pet, rather than buy from a breeder. Adopted pets also have the added value of being temperament tested, de-sexed, vaccinated, wormed, flea treated and micro-chipped before adoption. The adoption fee in fact barely covers the cost of preparing a dog or cat for adoption.
- Most dogs and cats at a shelter or pound are mixed breeds, and as a general rule, mixed breeds have fewer genetic health concerns and have been known to live longer than their pure-bred counterparts.
- Shelter staff are knowledgeable about our shelter animal's personalities and requirements and are a great resource for matching you to the right pet. They'll also give you comprehensive advice on how to be a better pet owner.
- Many dogs and cats available for adoption are adults and there are many benefits to adopting an older pet. Most will have undergone some training, they're often more settled and relaxed, you know exactly what their personality is like and how big they'll be.
- Shelter animals are often more loyal and affectionate companions, as they respond well and blossom in a caring, safe and loving home.

Since our official opening in 1913, we have been a voice for animals without owners caring for thousands of cats and dogs each year. Pioneers for fair animal laws, we continue to work on the front line to reduce the number of lost, abandoned and stray cats and dogs.

We rely on public support to run services and programs, including: proactive adoption, foster care, behaviour rehabilitation, low cost desexing and microchipping, and the promotion of better pet ownership through education.
